

How to Run Project 1

1. Download and unzip all contents of 'aes_m12226365'.
2. Open terminal/command prompt.
3. Navigate to the 'aes_m12226365'
4. Once in the folder, run 'python3 main.py'
5. The executable will run and display the results. 'results.txt' should now be viewable in the 'data' folder.
